MEDAN - About fifty people of Naga Kisar village, Pantai Cermin sub-district, Serdang Bedagai attended socialization session on COVID-19 Safety organized by PT Aqua Farm Nusantara (PTAN) and local Health Office to communities living around Lubuk Naga processing facilities on Monday (12/10/2020)

“This is part of our KAMI PEDULI Community Health Program of COVID-19 Safety Awareness Outreach that we jointly organized with Pantai Cermin

Community Health Center. Educational information about COVID-19, how it infects people and how to prevent the infection was delivered by Linda, SKM, local COVID-19 Taskforce Educator. We also emphasized the importance of wearing mask, washing hands and practicing social distancing. We distributed reusable masks and educational fliers to participants,” said Dian Octavia, Senior Manager Corporate & Community Affairs.

Dian said, to date the company has conducted socialization sessions at four villages at Pantai Cermin, Perbaungan and Teluk Mengkudu sub-districts. “The feedback from the communities and local health officers is very positive. This is a collaboration between the company and Serdang Bedagai District Government. We would like to thank Serdang Bedagai District Government and Health Office team for their continued support,” said Dian.

“Our next COVID-19 Safety socialization sessions will be held at villages in Ajobata subdistricts, Toba Regency,” said Dian. Previously, as part of KAMI PEDULI Masyarakat for COVID-19 program, PT AN has provided face masks, hand soap, disinfecting agent, portable hand washing stations and other medical equipment to local communities and health centres to help reduce the risks of the spread of the coronavirus.

“We will continue to work with Health Office and community health centres through our KAMI PEDULI Community for COVID-19 programs to contribute to our national effort to stop the coronavirus spread in the community. We always put the safety and health of our employees and communities as our top priority,” said Dian. (Karmel)
